Door Fault Monitor

THE ORIGINAL DOOR FAULT MONITOR SOLUTION

Designed to work with
any elevator controller

BENEFITS

- Non-proprietary design permits use with any controller on the market
- Easy to install
- Meet door fault monitoring code requirements without a complete modernization
- Front and rear opening DFM options
- Technical support available
- PE-approved drawing modification services can be provided
- Satisfies NYC Building Code 2.26.5 and 3.10.12, Appendix K - required by 2020

FEATURES

- Detects faulty door contact circuits and prevents car movement when a fault occurs
- Separate commons for different circuits
- Universal inputs (24-250V, AC or DC)
- On-board diagnostics/troubleshooting
- Alarm relay permits audible or visual indication that a fault is present on the DFM
