HYDRAULIC ELEVATOR MODERNIZATION

VantageElevation.com

VANTAGE ELEVATOR SOLUTIONS

our promise to you

Vantage has united the very best brands and people in the elevator industry.

We offer easy access to a vast array of resources, expertise, and product solutions designed to meet the exacting requirements of the application.

We are excited to demonstrate what this means to you, our customer.

THE POWER TO MOVE

The name Vantage summarizes in a single word what we strive to achieve for our customers — a position of strategic advantage.

There is power in partnership. Our team will work with you to develop innovative packages and outcomes that will deliver to you 'The Power To Move.'

VANTAGE COMPANIES

Every Vantage business is rich in heritage. Our products and people are the best at what they do, and our resources are dedicated to the safe and reliable movement of people...always.

RENEW

series

The Vantage “RENEW” series delivers on our commitment to provide customers with the benefits of our broad spectrum of products and services.

Working with our regional specialists, you will enjoy the convenience of our harmonized configuration portal, one-stop-shop ordering, and quick-access status updates.

Our regional centers are reinforced by our primary business units and offer priority order scheduling and account management, freeing you to concentrate on managing your business.

3

ORDER

Once your quote is approved, we'll confirm your order and schedule a delivery date.

4

INSTALL

Our modernization packages are designed for quick and easy installation to minimize downtime.

RENEW hydro

WHAT'S INCLUDED

Every RENEW solution has been designed to simplify your demanding modernization projects. We have selected the best components from the Vantage product portfolio, delivering you a renewed elevator to delight your customers.

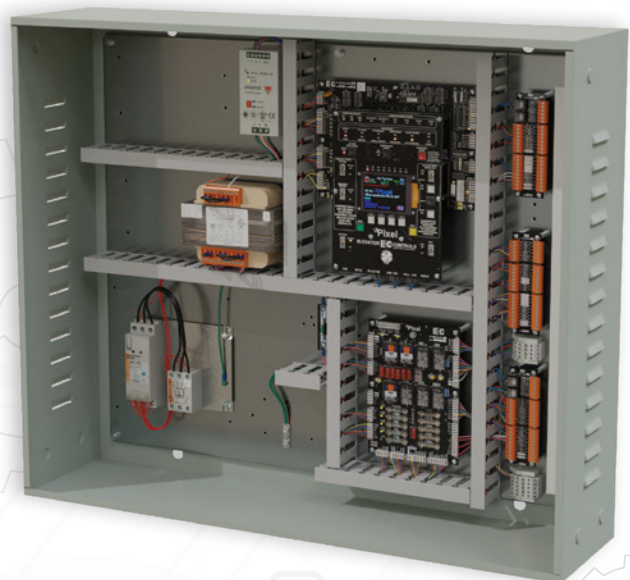

From controller and drive unit to door equipment and signal fixtures, our packages are well engineered, quick to install, easy to maintain, and deliver years of reliable performance - all from names you have come to rely on, including:

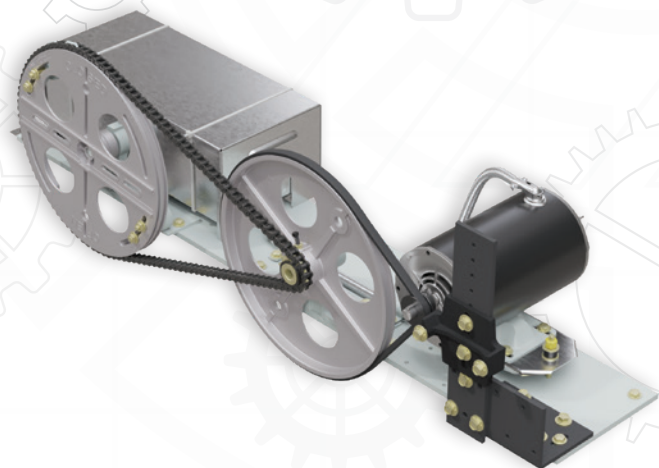

CONTROL SYSTEMS

Vantage offers the vertically-integrated eHydro and PIXEL HYDRO control solutions.

- 3 points of access, facilitating easy car diagnostics and performance adjustments
- Intuitive, easy-to-learn full-color user interface
- Fully-integrated Absolute Positioning System, that provides exact car position at all times

DOOR EQUIPMENT

GAL is the first name in non-proprietary door equipment to satisfy all applications.

- Closed-loop feedback ensures superior door control
- Simple 'Plug & Play' light curtain integration
- Serial communication protocol (CAN), which can be used with all Vantage control systems

Vantage also offers complete replacement door solutions from qualified industry partners.

PUMP UNITS

Bore-Max offers submersible pump units built to withstand decades of trouble-free service.

- Easy access, removable motor, and pump chassis assembly to improve maintenance and servicing
- Multiple tank capacities

SIGNAL FIXTURES

Vantage Fixtures Designed & Made By MAD often define the quality of a renewed elevator project to both owners and users.

- Durable, visually-aesthetic buttons and switches
- Complete suite of displays, communications, and safety systems to satisfy all code and customer requirements

INSTALLATION CABLES & ACCESSORIES

Vantage understands what is needed to ensure a successful modernization project, down to the last nut and bolt.

- Easy-connect traveling cable and signalization solutions
- Full installation instructions and set-up guides
- Technical support readily available

CLOSER TO OUR CUSTOMERS FOR BETTER SERVICE AND SUPPORT

Our team offers customers the benefit of years of hands-on experience earned both in the field and within corporate management. With a deep commitment to providing quality service and anticipating customer needs, we continue to expand our locations to get even closer to our customer base. In addition to our Regional Service Centers, we have North American locations from coast-to-coast that can quickly and easily respond to customer needs.
