

## Modernize Your KONE MX10 or NMX11 Rail Mounted Machines with the RENEW™ MRL from Vantage

Are your KONE MX10 or NMX11 rail mounted machines ready for modernization? Vantage Elevator Solutions is here to help with **RENEW™ MRL**.

The RENEW™ MRL package combines the GLR25S2 and Pixel MRL controller. The GLR25S2 is a direct mechanical replacement for the KONE MX10 & NMX11 rail mounted machines. The Pixel AC MRL from Elevator Controls is a complete traction controller solution designed to fit in smaller MRL spaces. It features a unique, tall-and-slim form factor that's ideally suited for your modernization project.

### Ready to maximize the value of your KONE modernization?

The RENEW™ MRL from Vantage delivers a complete machine/control solution for your modernization project.
