

GAL MONXT - OMNI

Telescopic Linear Operator

GAL'S LATEST LINEAR OPERATOR

Designed for Modernization

The "MONXT-OMNI" is the latest addition to the GAL linear portfolio. Designed for modernizations, one unit is capable of driving most existing conditions. A telescopic channel and adjustable belt allows a single operator to open a large range of door openings. All the benefits of a non-proprietary GAL Linear operator without having to replace door hangers and/or locks.

Operator is available for side slide and center opening doors.

BENEFITS

- Capable of attaching to most equipment
- The kit contains an easily learned tool and software
- Existing tracks, door hangers, clutches and locks can be retained
- No need of surveys or voltage
- Door conversion can be performed quickly and easily
- Unit is sold non-handed and can be changed to a right closing operator in the field in minutes

STANDARD FEATURES

- CSA B44/ASME A17.1 approved
- 1200 lbs. total panel weight capacity
- AC Voltage range 115/230 VAC
- 1/2 HP motor
- The drive belt is capable of traveling up to 54"
- GAL Operator uses Discrete Communication to the Controller

OPERATOR MODELS

OPL6-0001N - OMNI Telescopic Linear Operator Package

** Note: To use OPL6-0001N on a Multi Speed or Center Parting Opening, the existing panels must be externally related.*
